

## Thermo-Force | 6612

### Features:

Size Range: 5 - 13

Accreditation: SANS/ISO 20345

Colour: Black

Heat Resistance: Up to 300° Celsius

Sole: Vulcanised Rubber

Upper: Genuine Leather

## COMPONENT SPECIFICATIONS

### Upper

- The upper is cut from 1.8 – 2.0mm Split Military Print and Smooth Leather, which are strong and have high wearing durability.
- This is a military and police vulcanised boot which has a high degree of comfort and durability. The bellows tongue gives added flexibility and movement as well as good support.
- The vamp lining is made from a special needled Hi-Tech Fibre blend which has excellent perspiration absorbency resulting in a low heat build up and a more comfortable shoe for the wearer.
- The eight eyelets are made from steel, which has been treated with a corrosion resistant “gunmetal” coating.
- The lace is braided and made from a polyester yarn with high abrasion resistance together with a central core for additional strength.

### Insole and Insock

- The insock is made from a specially developed antistatic, non-woven material which has exceptional directional stability, durability and comfort.
- A special shank reinforcement is moulded into the midsole to give additional support under the arch of the foot.

### Vulcanised Rubber

- The rubber sole is heat resistant up to 300° Celsius and provides excellent slip resistance on most surfaces.
- This boot is non-conductive and ideal for situations where there is a high risk of electric shock.

### Toe puff

- A thermo coated toe puff that meets SABS requirements.
